

Lesson 5.2: Variant data

- Compare various results for [**circumference of the earth**]
Varies by the way you search for it... circumpolar vs. equatorial
- Identify sources:
Blogger: “63% of all kids look at pictures of funny cats each day.”
What’s the source?
How was it measured?
- Don’t bake your answer into your query:
NO: [**average length of an octopus is 18 inches**]
